

Our Mission

Honor Veterans' preferences for health, independence, and well-being in the face of aging, disability, or illness by advancing expertise, programs, and partnerships.

Our Commitment to You

Our goal is to ensure that Veterans have reliable access to quality care in a home-based setting as well as in community programs that are delivered by appropriately trained health care professionals, teams, and caregivers.

For additional information, please contact your doctor's office or call 405-456-1000 to be linked to your provider.

SUPPORTIVE SERVICES FOR VETERANS

Veterans Affairs Health Care System

What is respite care?

Respite care provides relief for a caregiver who takes care of a chronically ill or disabled Veteran at home. It is usually limited to 30 days per calendar year and services can be provided in the home or in other community settings such as one of the nursing homes with which the VA contracts.

An in-home respite day does not provide 24 hour coverage. Six hours a day of coverage is considered one respite day in the home. If 24 hour care is needed or desired, a contract nursing home is available. Your doctor, also known as your Patient-Aligned Care Team (PACT) Provider, can order these services. For some Veterans, a copay is required.

Homemaker/Home Health Aide (H/HHA)

These services are available to support Veterans at home and keep them from nursing home level of care. Assistance is provided in the home by non-skilled, certified aides from agencies that partner with the VA. These aides help Veterans with their activities of daily living.

Your PACT Provider can complete a functional assessment to determine if you meet criteria for this service.

There is no cost to the Veteran for this service.

Adult Day Health Care (ADHC)

ADHCs provide health maintenance and rehabilitative services to Veterans in a group setting during daytime hours. Veterans can participate one to five days/week in this type of care. Some facilities provide transportation to and from their site.

Your PACT Provider can order this service if you are interested in participating. For some Veterans, a copay is required.
